

Strategies for adding

sums to 5	If you know the sums to 5, like $3+2$, you can find other sums like $3+4$, because $3+4 = 3+2$ plus 2 more
--------------	--

sums to 10	If you know that $6+4 = 10$, then you can figure out $6+5$, because it's 1 more than $6+4$
---------------	--

doubles plus one	$6+7 = (6+6) + 1$ more
---------------------	------------------------

doubles plus two	$7+9 = (7+7) + 2$ more
---------------------	------------------------

nines	Add ten then subtract 1
-------	-------------------------
